## FISCAL YEAR-END

With the closing of 2024, we start a new fiscal year. A few reminders:

- Should you need assistance with tax return preparation, please contact Chris LeClair (Ext. 126). He will direct you to the nearest community resources available.
- An annual accommodation summary will accompany your statements this month, along with a summary of Trust Transactions. If you need additional documentation, please see the front desk.

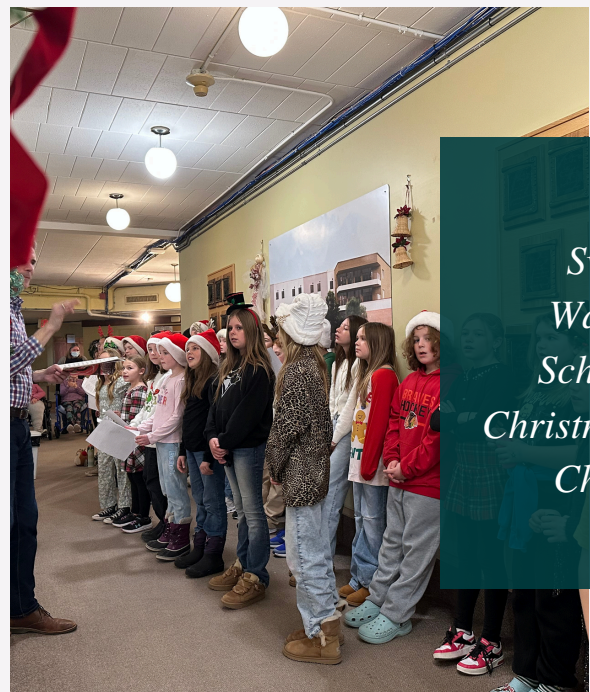

## MEALS AT THE MANOR

In fiscal year 2025, new prices for lunch and dinner will be charged to all visiting parties: \$10/Lunch & \$15/Dinner.

Such meals will need to be purchased in advance at the Front Desk, and booked a minimum of 2 hours prior.

The 2 hour booking requirement also applies to all meals where the visitor is simply sitting with, or bringing their own meal to enjoy with their loved one.

The kitchen will no longer be able to provide 'drop-in' meal accommodations, and cannot guarantee that ample seating will be available on such occasions.

## COMMUNITY ILLNESS CONTINUES

The community continues to experience waves of respiratory illness during the winter season. Therefore, the Manor reminds everyone to continue with their due diligence at this time.

If you are currently experiencing symptoms of illness, please do not visit our facility. Additionally, if a close family member is also experiencing illness, it would be in the best interest to avoid visiting your loved ones until their symptoms subside as well. Further, mandatory masking is required throughout the Manor at this time. A decision to lift the masking requirement will come at a later date, as the cold/flu season begins to dwindle.

## REDEVELOPMENT

Currently, teams are working diligently to completely enclose the new addition, to provide a heated environment for work to continue throughout the winter.

The project is making good progress, and is officially considered 30% complete.

Steel framing has given the structure a relatable feel to the observer, and we expect more external finishing's to provide a discernable shape to the public in the near future.
